Subject: Revision in Designation/ Level

Dear Shanjeevi M,

As part of Ascendion's continued efforts to align our organizational framework with prevailing market structures, industry best practices, and evolving business requirements, we periodically undertake an organization-wide rationalization of designation titles and levels to ensure consistency, clarity, and alignment with external benchmarks.

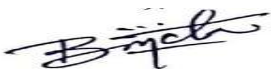

Pursuant to this review, your designation and level is being revised to **Entry level Associate - AL 0** with effect from June 1, 2027 (Effective Date).

Please note that this change is limited to your designation and level only. There will be **no change** in your compensation, benefits, reporting structure, job duties, roles and responsibilities or any other terms and conditions of your employment (unless otherwise communicated separately in writing).

All existing employment terms remain unchanged, and you are required to continue adhering to all company policies and employment terms, including but not limited to the Code of Conduct policy, obligations under the Non-Disclosure Agreement, and any other agreements previously signed by you.

We appreciate your continued contribution to Ascendion and look forward to your ongoing support as we strengthen our organizational framework.

For any clarification, you may reach out to HRBP / People Partner.

Best Regards,
Brijitha Prasanth
Associate Vice President – People & Culture
